Established 1845

THE interpretation of classic forms is the true expression of lasting tribute to the departed.

Simplicity of treatment rather than ornateness has characterized the efforts of this company for the past 73 years.

Ranging from monumental pieces of public interest to the simplest of private tributes this organization has achieved wonderful success in executing the conceptions of prominent sculptors and architects as well as the work of its own carefully selected staff of designers.

This varied experience, coupled with extensive quarrying and cutting facilities under personal supervision, permits the offering of unusual service in suggestion and advice to our patrons.

The list of clients contained herein represents only a few of those who have availed themselves of our facilities.

Reference to such can be made on request.

Mrs. Frank S. Yantis,
Paragould, Ark.

Dear Madam:

Pursuant to your request we take pleasure in enclosing our booklet. Our partial list of clients contains names of discriminating families, some of which may be familiar to you.

As memorials are diversified as to sizes and ornament, the enclosed illustrations are typical only; we would supplement them upon your advice as to motive desired.

Please do not hesitate to make inquiries that would enable us to help you crystallize your ideas upon a memorial of high quality and of dignity suitable to its setting.

The writer makes trips in that vicinity at intervals, and would be very glad of a personal interview. We would greatly value your advice as to type you are interested in, when we will supplement the cuts with something more in detail, without a wish to place you under obligation.

Please let us hear from you further.

Yours very truly,

M/C

HARRISON GRANITE COMPANY.
