# TO THE TRADE

---

I herewith present you with my 1903 catalogue showing a number of reasonable priced statuary monuments and some of my latest statues. You will notice that the figures shown in this catalogue, also in my 1901 catalogue are copies of my own work either from the models or from the granite figures, and by ordering from me you will get exact duplicates, and not be imposed upon by getting inferior work.

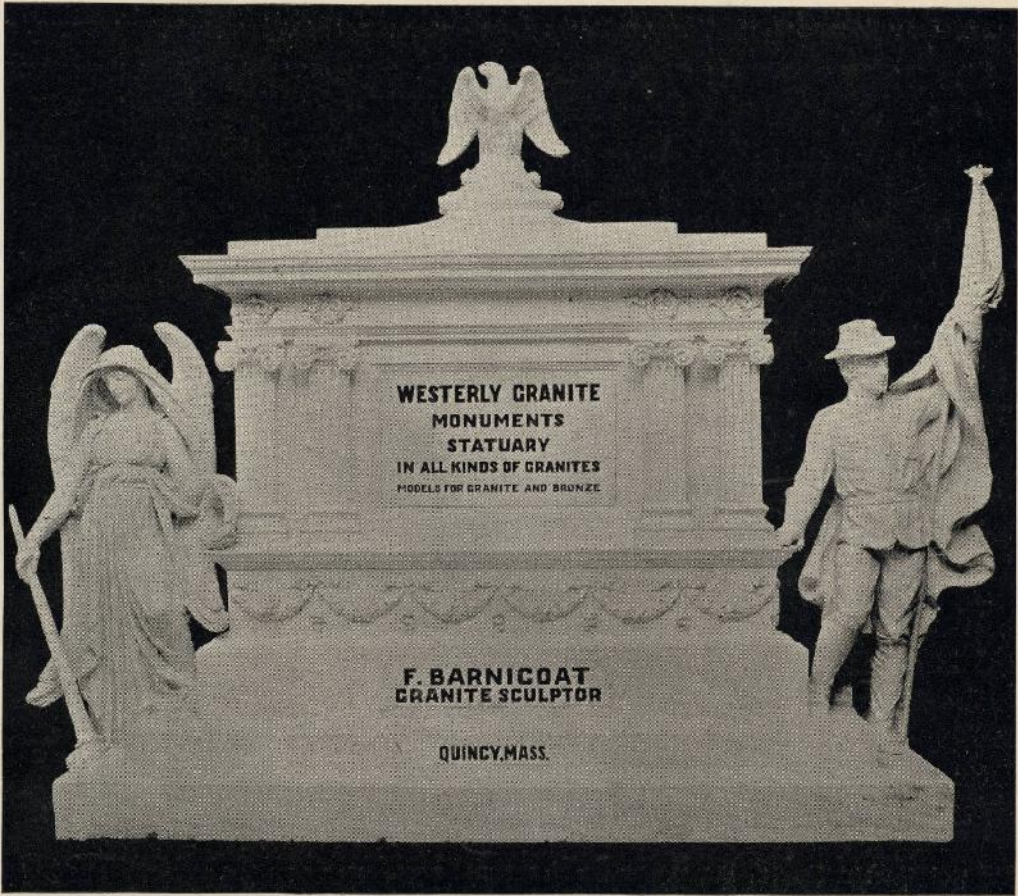

It matters not how well the workmanship upon the monument has been done, if the monument has been surmounted by a carelessly executed or poorly modelled piece of statuary, the entire effect has been spoiled. There is nothing that can add so effectively to the appearance of any monument, as a well designed and carefully executed statue.

My 1901 catalogue containing over 60 designs of monuments and statues will be sent to any retail dealer upon application.

Photographs of the designs illustrated in this catalogue will be sent by mail on receipt of 50 cents in stamps in advance for each photograph, and I will refund the money if the photographs are not found satisfactory, providing they are returned to me in good order.
